<https://www.linkedin.com/in/nathanielpangilinan>

Detail-oriented and technically skilled fresh graduate with hands-on experience in IT support, hardware and software troubleshooting, and network maintenance. Completed 486 hours of OJT in a large BPO environment and 160 hours of academic IT support. Eager to contribute technical problem-solving skills and a strong work ethic in a Junior Technical Support role.

SKILLS:

- **Hardware & Software Troubleshooting:** Experienced in diagnosing and resolving hardware failures, software issues, and system errors across various devices and platforms.
 - **Network Support:** Knowledgeable in network connectivity troubleshooting, basic network configuration, and maintaining operational continuity across facilities.
 - **Ticketing & Escalation:** Familiar with helpdesk ticketing workflows, issue escalation procedures, and maintaining service documentation.
 - **Device Configuration:** Experienced in device setup, configuration, and deployment in both corporate and academic environments.
 - **Operating Systems:** Proficient in working with Windows environments for desktop support, system maintenance, and user assistance.
 - **Web & System Knowledge:** Background in web development and software engineering provides deeper understanding of application behavior, system architecture, and software-related issues.
 - **AI-Assisted Workflow:** Experienced using AI tools to improve productivity, research solutions, and streamline support processes.
 - **Communication & Documentation:** Able to clearly communicate technical issues and solutions to non-technical users; experienced in providing first-line assistance and maintaining user satisfaction.
 - **Problem Solving & Analytical Thinking:** Strong ability to identify root causes, apply systematic troubleshooting, and resolve issues efficiently under pressure.
-

EXPERIENCE

OJT – IT Support Concentrix Sparks Place | June 2025 – October 2025

- Completed 486 hours of hands-on technical support in a large BPO environment covering hardware, software, and network troubleshooting
- Diagnosed and resolved system issues for staff and users, maintaining operational continuity
- Earned a final performance grade of **1.00**
- Gained practical experience in ticketing workflows, device configuration, and escalation procedures

Social Contract – IT Support Pamantasan ng Lungsod ng Valenzuela | February 2026 – April 2026

- Completed 160 hours supporting faculty and students in an academic IT environment
- Assisted with hardware setup, software troubleshooting, and network connectivity across campus facilities
- Provided first-line technical assistance, improving staff productivity during the semester

Full-Stack Developer & Project Lead — GROWBRAIN Capstone Project Pamantasan ng Lungsod ng Valenzuela | December 2024 – April 2026

- Managed end-to-end development of a Flutter-based application, including backend logic, data integration, and system testing
- Demonstrated strong project management, documentation, and delivery skills
- Troubleshot technical issues across frontend, backend, and database layers throughout the development cycle

EDUCATION

Pamantasan ng Lungsod ng Valenzuela (2022 - 2026)

Bachelor of Science in Information Technology (BSIT)
