Front-End Developer (graduating BSIT student) with hands-on experience building responsive web applications, intuitive user interfaces, and game UIs using React, Vue.js, and Tailwind CSS. Strong in translating Figma designs into clean, pixel-accurate, mobile-first code. Delivered real projects including e-commerce websites and a cognitive rehabilitation game. Ready to contribute as an entry-level front-end developer.

SKILLS:

- **Front-End Development:** Experienced in building responsive and user-friendly web applications using React, Vue.js, and Tailwind CSS. Capable of developing clean, maintainable, and mobile-first interfaces.
 - **UI/UX Implementation:** Skilled in translating Figma designs into pixel-accurate, accessible, and responsive layouts with strong attention to detail and usability.
 - **Web Technologies:** Proficient in HTML, CSS, JavaScript, and modern front-end practices including component-based architecture and state management.
 - **Tools & Development Environment:** Experienced in using Git, GitHub, VS Code, and modern development workflows for version control and collaboration.
 - **Game & Interactive Development:** Capable of designing and developing interactive user interfaces and game systems, including cognitive rehabilitation applications.
 - **Basic Back-End & Integration:** Knowledgeable in integrating APIs and handling basic back-end logic for dynamic web applications.
 - **Graphic Design & Media Tools:** Able to create UI assets and visual content using Canva, Adobe Photoshop, and other design tools.
 - **Problem Solving & Debugging:** Strong analytical and troubleshooting skills in identifying and resolving front-end issues and optimizing performance.
 - **AI-assisted development** using Claude, Antigravity, and VS Code AI agents to accelerate coding, debugging, and development workflows while ensuring clean and maintainable code.
-

PERSONAL PROJECTS

<https://nateportfolio.vercel.app>

VANTAGE — Full-stack productivity platform built with React + Vite + Supabase. Features a Kanban board with drag-and-drop, multi-board support, real-time activity logging, calendar view, command palette with keyboard shortcuts, advanced filtering, and a complete auth system with dark/light theme toggle. Live at vantage-peach-ten.vercel.app

PORTFOLIO — Designed and developed a production-grade personal portfolio with Three.js 3D animations, scroll-driven micro-interactions, a terminal-style UI easter egg, and a Firebase-powered admin CMS for real-time project management. Scored high on performance and accessibility. Live at nateportfolio.vercel.app

GROWBRAIN (Capstone) — Led end-to-end full-stack development of a Flutter-based cognitive rehabilitation game for students with mild impairments. Designed the full UI in Figma and implemented responsive, interactive game features with accessibility in mind.

EDUCATION

Pamantasan ng Lungsod ng Valenzuela

2022 - 2026

Bachelor of Science in Information Technology (BSIT), expected graduation in 2026, with coursework and projects focused on web development, software engineering, and interactive system design.

EXPERIENCE

Full-Stack Developer & Project Lead — GROWBRAIN CAPSTONE PROJECT

Pamatasan ng Lungsod ng Valenzuela

December 2024 - April 2026

Responsibilities:

- Solely designed, developed, and managed the end-to-end development of a Flutter-based cognitive rehabilitation game for students with mild impairments
- Handled everything from UI/UX design in Figma, frontend implementation, backend logic, and data integration — to project management and final delivery
- Presented during the capstone defense, recognized for polished UI and seamless user experience

OJT – IT Support

Concentrix Sparks Place

June 2025 - October 2025

Responsibilities:

- Completed 486 hours of hands-on technical support in a large BPO environment covering hardware, software, and network troubleshooting
- Diagnosed and resolved system issues for staff and users, maintaining operational continuity — earned a final performance grade of 1.00
- Gained practical experience in ticketing workflows, device configuration, and escalation procedures

Social Contract – IT Support

Pamatasan ng Lungsod ng Valenzuela

February 2026 - April 2026

Responsibilities:

- Completed 160 hours supporting faculty and students in an academic IT environment
- Assisted with hardware setup, software troubleshooting, and network connectivity across campus facilities
- Provided first-line technical assistance, improving staff productivity during the semester
